Hive EPM - Enterprise Performance Management

Know the Pulse of your Business!

Executives within organizations face a number of challenges in achieving their goals and objectives. Factors like economic volatility, increasing stakeholder expectations, inefficient business processes and IT complexity play a huge role in the performance of a business. Resilience and agility is required to navigate and thrive in today's unpredictable market. In order to overcome these barriers an integrated Enterprise Performance Management platform is needed. A platform which can support the growing needs of executives and can help them unlock the business potential to deliver profitable results.

Hive-EPM, HiveWorx' Enterprise Performance Management product-set provides a unified data-driven Business Intelligence (BI) and performance management suite that is powerful yet intuitive for all types of business users.

Enterprise Performance Management Aligns an Organisation with its Strategic Goals & Objectives!

Hive-EPM is all about leveraging the insights hidden in the data to guide an organization towards its strategic objectives. It is an organizational discipline, enabled by technology which supports strategic decision-making. The KPIs and scorecards link metrics to the strategic goals and objectives of the organization.

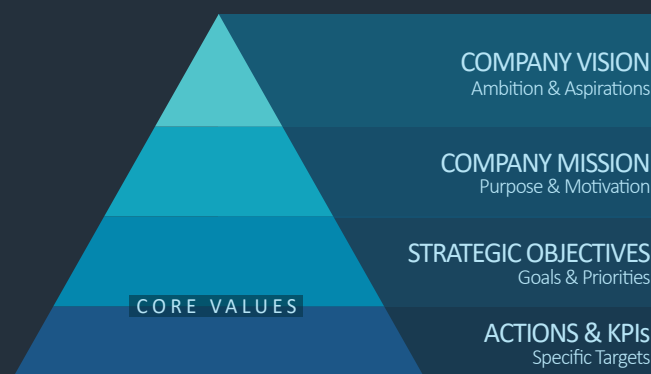

Value Proposition

- **Centralized Data:** Consolidates data from multiple sources into a Centralized repository for a single view of data across the organization.
- **Real-Time view of Performance:** Provides real time access to organizational performance enabling the executives to make timely decisions.
- **KPI Level Insight:** Enables the management to dive into the data and have KPI level performance insight.
- **Alignment of KPIs:** Aids in alignment of KPIs with overall corporate Objectives and Missions.
- **Collaborative Decision Making:** Enables communication among the work teams leading to collaborative decision making.
- **Alerts and Notifications:** Enables users to setup real-time alerts and notifications on upcoming, overdue and underperforming metrics.
- **Unlimited Source Types:** Support of multiple types of source systems ranging from flat files and relational databases to Non- Relational (NoSQL) databases.
- **Easy-to-Use Interface:** Provides an intuitive interface to configure Business definitions, KPI Business Rules, Calculations and Targets etc.

Hive-EPM at a Glance

Hive-EPM translates strategy into action by linking KPIs to organization's Objectives, and aligning Objectives with Missions and Vision of the company.

Hive-EPM empowers the end users to configure the solution as per the changing needs of the enterprise. It allows business users to define new KPIs, Objectives, Missions, Vision, Perspectives or initiatives on the go, users are also empowered to per-

form analytics that are critical in facilitating quick and efficient decision making.

Hive EPM - Enterprise Performance Management

Efficient Tracking, Monitoring and Evaluation!
